## SUMMARY

Results-driven Python Developer Intern at codevesa, adept in data analysis and SQL database management. Successfully created unit tests and utilized the Pandas library for impactful data visualization. Demonstrated strong problem-solving skills while training new team members and managing multiple projects under tight deadlines. Passionate about delivering high-quality solutions.

## SKILLS

- Python programming
  - Data analysis
  - Data visualization
  - Problem solving
- Pandas library
  - Web development
  - Linux environment
  - UNIX shell scripting
- GitHub collaboration
  - SQL databases
  - Jupyter notebooks
  - Python packaging

## EXPERIENCE

- 12/2024 - 02/2025
- Python Developer Intern, codevesa, Bengaluru, India**

- Managed multiple projects simultaneously, consistently meeting tight deadlines and adhering to quality standards.
  - Developed unit tests for existing and new Python code with PyTest framework.
  - Conducted data analysis and visualization using Pandas library to derive insights.
  - Delivered technical support for applications connected to SQL server databases.
  - Trained new team members on database usage protocols and best practices.
  - Created custom web applications leveraging Django and Flask frameworks.
  - Assisted end users in resolving issues encountered in Python-based applications.

## EDUCATION AND TRAINING

- 04/2016
- B.TECH, COMPUTER SCIENCE AND ENGINEERING**

**SRI KRISHNA DEVARAYA UNIVERSITY, ANANTAPUR**

## LANGUAGES

- Telugu: First Language
